In just a few hours your bed will be fully expanded and feel good. After a few night's sleep you'll feel your body slowly adjust to your new memory foam mattress.			

Improved Temperature Regulation

A combination of top layer cool gel-infused beads as well as a deep cut design allows for better air flow and year-round temperature regulation.

Dual Layer Memory Foam

40D High Density 2 inch Gel-Infused Memory Foam top layer helps regulate body temperature by drawing excess heat away from the body.

25D 6 inch Comfort Plus lower layer with Open Cell Technology provides an additional level of comfort like never before. Balloon-like cells allow for air flow throughout the mattress for excellent breathability and temperature control.

Spinal alignment control

Suitable for couples, memory foam effectively reduces motion transfer so you can minimise sleep disturbance, reduce wear and tear and get a much better overall night's sleep.

Naturally Hypoallergenic

Our memory foam mattresses create an unfriendly environment for mould, mildew, dust mites and allergens. Great for those of us with any sort of respiratory problems, allergies and germ-o-phobes!

Pressure Care Guaranteed

✗ Spring Mattress

✓ Memory Foam

The difference between a spring and memory foam mattress can be demonstrated by means of an electronic measurement system. Memory foam mattresses show a significant reduction in pressure for a more comfortable sleep.
